Sat 7.00 - 16.00

Sun 10.00 - 14.00

The Sawmill have been manufacturing fencing and timber products for almost 50 years, supplying tradesmen and the general public. The typical 1950's Sawmill has been transformed into a modern day facility incorporating strong family values and high quality products.

The modern day production combines high quality timber with cutting edge technology to produce a variety of timber products including fencing, decking, sheds, gates and stables

FENCING

WE OFFER A BESPOKE SERVICE

At Sawmill UK we can make any fence panel to any specification in our purpose built Sawmill. We have the latest cutting technology which enables us to manufacture all our fencing on site. This means that we can keep our prices extremely low whilst still offering you fencing that is far superior to that of our competitors.

- All panels available in any size
- Options for straight top, arch top, or concave top
- All pressure treated (tanalised/tanatone) in either green/ brown
- Next day delivery available**
- We can beat or match any genuine quote*

We offer a FREE on-site survey to all our potential customers to provide you with the best advice when planning your project.

ALL PRICES INCLUDE VAT

CUSTOMER NOTICE:
Please note colours may vary from different batches of timber.

*Genuine written quotations must be provided. **Stock items only. All panels are available with a range of tops concave, convex and in a cathedral arch. Panels available in planned timber. All prices include VAT. Delivery kerb side only unless prior arrangements are made. All details in the brochure are correct at the time of going to print November 2017. Prices may be subject change due to increased timber costs. Images shown are for illustration purposes only, please confirm your requirement at the point of ordering.

Please note that at the Sawmill we would like to point out that timber is a natural product and it can split, warp, shrink and expand. All these characteristics are normal and in no way affect the longevity of the product. Wax coat or a wood treatment can be applied onto the timber and this will give some protection against cracking and splitting. Colours may vary from photos and production batches. Most of our fencing is manufactured to order and so are non-returnable. Pressure treated timber will need to be maintained. Timber will decay over time, we offer no guarantee against rot.

What is Deluxe

The deluxe range of fence panels are made using planed timber which has a smooth finish. These panels are a great alternative to the popular sawn timber range. The deluxe range comes pressure treated in green.

We offer a wide range of fencing offering every size, type and style imaginable.

- All deluxe panels are made here in Wakefield, we do not import panels.
- All panels available in any size
- Free on-site surveys
- Deluxe display are on site
- We can beat or match any genuine quote*

OUR SHEDS ARE MADE ON SITE SO THEY CAN BE TAILORED TO YOUR SPECIFICATIONS

CUSTOMER NOTICE:

Please note pressure treated sheds will still require treatment to help prolong the life of the timber. Please note that while we felt all of our sheds to make them water tight, sheds are not by their nature 100% waterproof. In heavy rain water ingress may occur through the timber itself and through the corners of the shed. We would strongly recommend an application of wax coat to repel water which should be applied as soon as the shed is fitted
